Call for papers

- You need to log in to EasyChair to submit your full paper. The related link is on the submission page.
- Papers must be written in English, and have between four and six double column pages adhering to the ICPR conference submission guidelines.
- Reviewing will be single-blind. In submitting a paper the authors acknowledge that no paper substantially similar in content has been or will be submitted elsewhere during the PRRS review period. All the papers will be reviewed by experts and accepted papers will be published by IEEE Xplore(EI). The expanded version of the paper can be contributed to Journal of Selected Topics in Applied Earth Observations and Remote Sensing(SCI) and will be published after review.

Papers for the PRRS2018 might be related to a large range of **topics**, including, but not limited to the following list:

- Feature extraction
- Feature selection and reduction
- Supervised and semi-supervised classification
- Clustering
- Active and transfer learning
- Deep learning
- Target and anomaly detection
- Data fusion
- Nonlinear methods for pattern recognition
- Novel pattern recognition tasks in remote sensing applications
- Technical reviews on related topics

Guideline for Presentation

- The speakers in the Oral Sessions will have **15 minutes** for presentation and **5 minutes** for questioning and answering. All speakers are requested to report their attendance to the session chairmen at least 10 minutes before the session starts.
- Projector, computer and screen will be provided in the presentation room. You need to prepare the presentation with one of **Microsoft PowerPoint /HTML/PDF** formats for compatible computer using portable storage device.
- If any special facilities are needed for the presentation, you should notify at least one week before the conference starts.
